

Extendicare Bayview

At Extendicare Bayview, we understand that each resident's quality of life depends on an approach to care that combines input from residents and family members, with individual assessments from a team of trained caregivers. This approach ensures that support and care is tailored to meet the needs of each unique individual.

Our staff includes registered nurses, registered practical nurses, healthcare aides, occupational and physiotherapists, a dietitian, a social worker, restorative care aides, dietary, housekeeping and laundry aides, and activationists to help, support and care for our residents. An experienced administrative team supports all our healthcare staff.

Our single storey home has 46 private rooms, 49 semi-private rooms and 29 standard accommodation rooms. Residents are encouraged to bring items such as bedspreads, pictures or their favourite lounge chair to personalize their rooms.

A home environment needs to be safe to feel secure, so at Extendicare Bayview there are call bells at each bed, in each washroom, and in all spa rooms. Our building is completely equipped with heat and smoke detectors, a sprinkler system, a two-stage fire alarm system with pull stations, and a wander guard system that provides added security for those residents who may wander.

- a unique one-floor layout
- a lovely courtyard

- a tea room for afternoon snacks
